

**Quickly and
for a specific need.**

We give new shape and durability to your iron.

We have decades experience in manufacturing load-bearing welds and consumables. Machined and heat-treated metal parts manufactured by us transmit power and endure hard wear. We have strong expertise, which we are now ready to put at your disposal.

Tailored services according to your needs.

Joleikon Ltd is a respected subcontractor for the metal industry. We have earned the trust of many successful companies. Our services include machining and metal heat treatment.

Our operations are based on the needs and criteria of the customer. Higher quality is not our aim, it is our strength!

Our strong financial standing bodes well for a long-term partnership with you the customer!
